081288052923 | dpandasiagian@gmail.com | <https://www.linkedin.com/in/darrenavram> | <https://github.com/darrenavram04>

My name is Darren Avram P.S, an undergraduate Geodesy and Geomatics Engineering student (3rd year) at the Bandung Institute of Technology. I'm a person who always thrive on challenge and fight my way to the best result. I have a well balanced life and decent output either academics or non academics. Growing up in an environment where resources were limited, I learned the true value of perseverance and resourcefulness. These experiences have fueled my passion for education as a means of empowerment and positive change. I actively engage with a lot of activities such as social or interest based activities. I am a dedicated and driven individual with a vision to make a difference.

Work Experiences

PT Waskita Karya Tbk. - Jakarta

Jan 2025 - Feb 2025

Internship

PT Waskita Karya (Persero) Tbk is a state-owned enterprise (BUMN) in Indonesia engaged in the construction sector. The company operates through five divisions: Building, Infrastructure I, Infrastructure II, EPC, and International.

- Conducted data collection using photogrammetry, GNSS, and Terrestrial Laser Scanner (TLS) for the Jakarta LRT Phase 1B construction project.
- Developed a WebGIS platform to visualize project-acquired spatial data and maps in both 2D and 3D formats for the Jakarta LRT project.
- Processed geospatial data for project planning and analysis using software such as Agisoft Metashape Pro, QGIS, ArcGIS Pro, Civil 3D, Cyclone 3R, and Redtoolbox.
- Understood the verification and validation process by comparing design data with actual data to ensure accuracy before use in the construction phase.

Center for Spatial Data Infrastructure - ITB - Bandung, West Java

Jul 2024 - Aug 2024

Internship

The company is responsible for updating spatial data for the city of Bandung at a map scale of 1:1000, including its attribute information, incorporating digital aerial imagery, digital surface models, 3D building models, and a spatial database of the city. This is achieved through digital aerial photography, LiDAR data acquisition, and field survey completion. The project involves collaboration with various partners, including the Bandung Institute of Technology (ITB).

- Developed a work index for each block area containing necessary data such as building identification for LOD 1.2, LOD 2.0, and LOD 2.2.
- Conducted software testing for field survey requirements and prepare necessary field survey data.
- Prepared Quality Control (QC) documents for RBI mapping and LiDAR data.
- Created monthly reports and update project proposals.
- Performed stereoplotting for the base map of Bandung at a scale of 1:1000.

Project Based Learning Positioning 2024 - Bandung Institute of Technology

Feb 2024 - Jun 2024

Project Leader

Positioning practicum for 4th semester geodesy and geomatics engineering students based on project-based learning. Completed the detailed campus map of ITB Ganesha at a scale of 1:500. The project included the creation of a contour map, slope map, planimetric map, and a 3D model of buildings with Level of Detail (LOD) 2.

- Led the entire project of 121 students from the planning, execution, data processing, and visualization stages.
- Coordinate the requirements for horizontal and vertical control frameworks, details & situational data, and visualizations.
- Produced topographic maps, planimetric maps, and a 3D model of the ITB Ganesha campus.

Education Level

Bandung Institute of Technology - Jl. Ganesa No.10, Lb. Siliwangi, Kecamatan Coblong, Kota Bandung, Jawa Barat 40132

Jul 2022 - Apr 2026 (Expected)

Undergraduate Geodesy and Geomatics Engineering, 3.84/4.00

- Achieved the Dean's List honor (GPA>3.75) in the third, fourth, and fifth semesters
- Worked as a research assistant for Dr. Techn. Nabila Sofia Eryan Putri, S.T., M.T., in the Department of Geodesy and Geomatics Engineering.
- Served as a peer tutor for several Geodesy and Geomatics Engineering courses.

Organisational Experience

Geopoint 2024 - Bandung, West Java

Aug 2023 - Feb 2024

Staff of Data Presentation Division

Geopoint 2024 is an annual large-scale project of IMG-ITB, where the content of the project consists of events themed around geospatial topics. The activities include seminars, school visits, scientific paper competitions, and community service.

- Visualizing spatial data of a particular area using GIS
- Participating in the dissemination of presentation results to the community

IMG-ITB - Bandung, West Java

Oct 2023 - Present

Staff of Professional Implementation

IMG-ITB is a continuation of the Geodesy Student Association or IMG, which was established on September 16, 1952, in Bandung. IMG-ITB itself is based in the department where the Geodesy and Geomatics Engineering program from Bandung Institute of Technology is located.

- Processing data for the needs of research in geodesy and geomatics engineering.
- Inviting speakers from outside related to the scientific topics of geodesy and geomatics.
- Initiating three types of workshops or seminars for IMG-ITB members that address important matters related to the scientific field of Geodetic Engineering and Geomatics.
- Establishing a research team to conduct research and create papers related to the academic field of Geodetic Engineering and Geomatics.

Aksi Angkatan Bumikara Sadajiwa - Bandung, West Java

Aug 2023 - Sep 2023

Chairman

Bumikara Sadajiwa is a community service initiative in which the 2022 Geodesy and Geomatics Engineering students conduct mapping of flood-prone areas using GIS, install biopore holes, and provide education about maps and compass directions to children. The community service activities take place in the village of Dayeuhkolot, Bandung Regency, West Java.

- Leading and organizing a meeting to report the progress of each division of the Bumikara Sadajiwa committee
- providing guidance on the tasks of each field and division
- supervise every single work and create a timeline that need to be followed through this project

ZOOM IN ITB - Bandung, West Java

Dec 2022 - Feb 2023

Tutor

Zoom In ITB 2022 is a form of community service by Bandung Institute of Technology students from West Sumatra. This event focuses on spreading enthusiasm to friends who are currently studying at the upper secondary level to continue their education to college.

- Teaching the English language skills required for regular university entrance exam preparation, preparing materials and delivery methods for the English language used in the exam.

ITB Student Orchestra - Jatinangor Festival 2023

Aug 2023 - Sep 2023

Conductor

The ITB Student Orchestra (ISO) is the student orchestra unit of the Bandung Institute of Technology, established on March 2, 2005. Eventually, ISO officially became a cluster of the Student Activity Unit (UKM) for Cultural Arts at ITB on August 8, 2005.

- Performer deliver outstanding orchestra performance contained with modern and classical song in front of all Bandung Institute of Technology freshman in 2023

ITB Student Orchestra - ISO Annual Concert

Jan 2023 - Present

Cellist

- Performers deliver works by both esteemed classical composers as well as music from modern media that manifests the youthful spirit of university student life

ITB Student Orchestra - New member admission of ITB Student Orchestra

Aug 2023 - Mar 2024

Vice Chairman

- Assisting the chairperson in coordinating all divisions and committees within it.
- Standing in for the chairperson when they are unable to attend.
- Assisting in the design of the new member admission event.

ITB Student Orchestra - Executive committee of ITB Student Orchestra

Sep 2024 - Present

Head of Human Resources

- Supervise and coordinate the Human Resource Development, Human Resource Management, and family welfare divisions to ensure synergistic and effective operations in achieving organizational goals.
- Evaluate members of the executive committee ISO 2024/2025 to assess their performance and contributions.
- Coordinate internship programs to enhance the knowledge and skills of new members in the HR field.

Skills, Achievements & Other Experience

- **Arkeologi 2024** (2024): First Place Winner of Article Competition Arkeologi 2024
- **POSI** (2021): Gold Medalist in POSI Science Olympiad
- **Tesla National Olympiad** (2021): Gold Medalist in the Tesla National Olympiad for Senior High School
- **Soft Skills** : Web development, Mathematical skills, Microsoft tools, understanding in GIS software, Teaching, Orchestral Music Arrangement, Computational Thinking, English Language, Korean Language
- **Interest**: GIS and Hydrography surveying
